

**ADAMS SCHOOL
OF DENTISTRY**

Dear Dr. Keith Beavers,

I am writing to share that you gave the UNC-CH Adams School of Dentistry an exceptional gift: you inspired Caroline Jennings to become an oral health professional.

This fall, Caroline joined us in Chapel Hill as a member of the UNC-CH Adams School of Dentistry DDS Class of 2023.

Caroline told us that you influenced them profoundly by making dentistry an enjoyable experience and inspiring them to be a dentist who loves and care for their patients. We are thrilled that they chose to learn, grow and fulfill their dream of becoming a dental professional here because of your impact.

We thank you for giving such incredible guidance and encouragement to Caroline, a future oral health practitioner. Your continuing support of Caroline will surely not only ensure their success, but also the excellence of our school.

Thank you for giving us the greatest gift for which our school could ask: a member of the next generation of the oral health profession, inspired to transform dentistry for better health.

Professionally yours,

Scott S. De Rossi, DMD, MBA
Dean and Professor, UNC-CH Adams School of Dentistry
